VITAMIN D3

- Essential for calcium and phosphorus assimilation
- Supports healthy insulin secretion
- Supports healthy immune function
- Studies show cancer patients are low in Vitamin D
- Can reduce the severity of asthma symptoms
- Low Vitamin D in diabetics doubles risk for cardiovascular disease
- Sourced from lanolin (vegetarian D3)
- Gluten free

Research confirms almost daily yet another health benefit Vitamin D supports - cardiovascular health, diabetes, depression, bone health, arthritis, asthma symptoms, healthy body weight, with more clinical trials in the works.

After years of admonitions to avoid the sun, "wear sunblock", for those who live in northern climates, or have naturally dark skin - it's clear supplementing Vitamin D is vital to our health.

Literally every single food we eat is captured sunlight. The very air we breathe, is a gift from the sun - through photosynthesis, plants "exhale" the oxygen that keeps us alive, and we return the favor, through our breath back to them as carbon dioxide. In just a few minutes in the sunlight, our bodies create thousands of "units" of Vitamin D.

PRODUCT SPECIFICATIONS

- Vitamin D 1000 IU, 100 count softgel, McGuff Item# 6313
- Vitamin D 1000 IU, 250 count softgel, McGuff Item# 8597
- Vitamin D 2000 IU, 60 count softgel, McGuff Item# 8604
- Vitamin D 5000 IU, 60 vegetarian tablets, McGuff Item# 8512
