

ORAL NUTRITIONAL PRODUCTS 2011

www.mcguiffmedical.com 1-800-854-7220

Meet Your Nutraceutical Representative:

Meet Janet Delear:

Janet Delear joined the McGuff Company team to direct the expansion of McGuff Oral Supplements and educational support for our McGuff customers.

Successfully healing with natural therapies fueled her lifelong commitment and ardent support of alternative therapies, naturopathic and chiropractic principles and integrative medicine.

Janet has more than 20 years experience in the natural supplement industry including retail, wholesale, product development and education.

Janet's passion and background in natural products, preventive and integrative medicine and nutrition began early in life. "I come from a family of athletes; both my brothers and I were captains of the swim team in high school or college. We were always experimenting with diet and supplements to see if we could improve our energy, stamina and competitive edge."

When Janet's not at work or reading, she's either riding bikes with her husband in California's awesome desert and hills, at the gym or playing with their dog, Sam!

Janet Delear

Janet is available to answer your questions about nutritional supplements & nutraceutical therapies at 800-854-7220 x1 18 and at Jdelear@mcguff.com

The McGuff Company Motto

"We ship every order on the day it is received"

TOTAL SATISFACTION 100% GUARANTEED

We at the McGuff Company stand proudly behind all of the products we sell and wish to make your purchase risk free. If for any reason, a product does not meet your expectations, we will, AT OUR EXPENSE, pick up and return all unused products and provide you with a full credit, exchange, or refund. Please call our Customer Service Department at 800-854-7220 within 30 days of receipt to arrange for the return. Some special ordered items may not be returnable. Please inquire.

Although we try to avoid it, prices are subject to change without notice.

Oral supplement prices here are suggested retail. Physician pricing is available. Please contact us at 800-854-7220.

Printed with plant-based inks on ecologically sound paper.
This printing supports ecosystem management programs and sustainability.
Please ask us for more details on how.

"If I'd known I was going to live so long, I'd have taken better care of myself."

~Leon Eldred

Why Purchase McGuff Oral Nutritional Products?

1) McGuff quality you know and trust!

If you have purchased drugs and medical devices from us in the past, you already know our uncompromising passion for quality pharmaceuticals and customer satisfaction. We apply the same strict benchmarks for our nutritional products as well. We searched for years to find raw materials that meet or exceed our stringent quality requirements. With our customers in mind, we dug past marketing "hype" and sourced premium raw materials, many with clinical trials to support efficacy. Our suppliers have decades of experience and feel the same way about producing high-quality products that we do. This means that you get the best quality product and value every time you purchase from McGuff.

2) Designed to fit your patients' needs

We keep abreast of the latest research. We are determined to offer therapeutic concentrates and formulas to support your efforts and your patients. We offer you specialized formulas. You will find vegetarian, dietetic, and hypo-allergic items in our product line. The majority of our products are gluten free. Our labels clearly state if a potential allergen is part of the formula. We never stop trying to give you, our valued customer, the best products possible. We are doing our best for you.

3) Products to support your bottom line

McGuff supports your efforts to improve your patient's wellbeing. We offer premium and therapeutic products at very competitive pricing so you can profit from your knowledge and clinical experience. We are committed to listen and learn from you, so that we can design and deliver solutions you, and your patients need. Our passion is to lead our partners, the customers of McGuff, into continued prosperity!

3) Manufactured with care

With McGuff name on the package, each nutritional product must pass our stringent standards for excellence! Every time you purchase or use one of our McGuff products, you can be certain it has been checked and re-checked by teams of experts.

4) Potency Guaranteed

Every product has an easy to read Best By Date to assure you that are getting full potency. Our products are always made with the freshest ingredients, which gives you the best quality possible.

5) Stellar customer service

"We are what we repeatedly do. Excellence, then, is not an act, but a habit."

~ Aristotle

We are always willing to innovate with you as a team, for better patient outcomes. Dependable in a pinch and loyal to our customers, our Customer Service Representatives make the McGuff difference day after day. Completion of in depth customer service and product training is the foundation of our representatives' ability to handle all of your questions and concerns. We have nutraceutical experts on staff to answer any questions you may have. We look forward to hearing from you!

Other Ingredients: Capsules (cellulose, water), cellulose, magnesium stearate, vegetable stearin and silica. Contains milk and soy.

30 Vegetarian Capsule Item #8609
Price: \$30.00 SRP

ACETYL L-CARNITINE

The Amino Acid L-Carnitine combines in the body with acetic acid to form ALC - Acetyl L - Carnitine. Its found primarily in the muscles, brain and testicles. It supports memory, mental performance and attention span. One of the brain's most important neurotransmitters, Acetyl-choline, is created by the presence of ALC. ALC supports healthy function of the male reproductive system.*

Supplement Facts

Serving Size 1 Capsule Servings Per Container 30

Amount Per Serving	% Daily Value
Acetyl L-Carnitine	500 mg *

* Daily Value not established.

Other Ingredients: Capsule (vegetable source), cellulose, silica, magnesium stearate (vegetable source).

30 Vegetarian Capsule Item #6325
Price: \$20.00 SRP

5HTP 100 mg

Our Standardized Griffonia Extract provides optimal levels of naturally occurring L-5-hydroxyTryptophan. Our L-5-HTP is formulated with important nutrients to optimize its effectiveness - Vitamin C and B-6 aid the conversion of tryptophan to serotonin in the body.

Our herbs comply with the strict exacting standards of German Commission E.*

ADRENAL SUPPORT

Our perception and attitude can “choose” stress. Chronic stress disrupts nearly every system in our bodies. It can raise blood pressure, suppress the immune system, increase the risk of heart attack and stroke, contribute to infertility, and speed up the aging process.

Long-term stress can rewire the brain, leaving us more vulnerable to anxiety and depression.

Supporting adrenal health assists in managing “events of life” that just are part of being human. We combine nutrients shown to support adrenal health.*

Supplement Facts

Serving Size: 2 Vegetarian Caps

	Amount Per Serving	% Daily Value
Vitamin C (as ascorbic acid)	60 mg	100%

COQ 10 200 and 300 mg

Aristotle said "Nature does nothing uselessly." In light of this, CoQ10 is vital to our health - it is found literally inside and outside every cell of our bodies. It protects every single cell in our bodies, as an antioxidant. It supports energy production, crucial for every cell, organ and system in our bodies to function.

CoQ10 is found everywhere in the body, and this is where its name comes from - it is "ubiquitous" - widespread. It protects cells and produces energy.

It helps maintain cardiovascular health and promotes vitality and energy. It promotes heart and gum health, and cellular energy production. CoEnzyme Q-10 is a fat-soluble nutrient, best absorbed when taken with supplements or foods that contain fat.

While CoQ10 has become known for cardiovascular health, benefits beyond that in protecting every cell are still being discovered through research.

Studies show it can prevent exercised induced muscle injury, and may assist in lowering glucose (sugar) levels. Those taking statin drugs (for lowering cholesterol) will want to include CoQ10, as they inhibit CoQ10 synthesis as they inhibit cholesterol.*

Supplement Facts

Other Ingredients: Safflower oil, capsule (gelatin, glycerin, purified water), soy lecithin, beeswax.

COQH UBIQUINOL 50 mg

UBIQUINOL is the pre-converted active form of CoQ10. Studies show the Ubiquinol form of CoQ10 is absorbed more efficiently and offers enhanced bioavailability over other forms of CoQ10.

We offer this form of CoQ10 because age, health deficiencies, certain medications or poor absorption can influence the body's ability to convert regular "Ubiquinone" to this reduced form, "Ubiquinol". This can lead to reduced energy production, weakened immune and antioxidant defenses, which may lead to disease. Those taking statin drugs (for lowering cholesterol) will want to include CoQ10, as they inhibit CoQ10 synthesis as they inhibit cholesterol.*

DHEA 5, 10, 25 mg

DHEA levels decline with age and adrenal stress. DHEA supports the immune system, thyroid function, as well as memory and energy function. Studies show positive results with lupus. It is a precursor to both male and female hormones.

DHEA levels are reported to be lower in those with anorexia, Type 2 Diabetes, AIDS. DHEA levels are reduced with several drugs, including steroids and opiate type pain medications. It is the most abundant hormone in the bloodstream and even higher levels are found in the brain.*

DHEA may affect Androgen and Estrogen levels.

ENZYME COMPLEX With Herbs

You've heard "you are what you eat". More accurately, "you are what you assimilate". Enzymes are essential to extracting the nutrients in food. We created our enzymes to be complete full spectrum, to help with digesting proteins, fats, carbohydrates, and liberate those health and vitality promoting nutrients.

We added supportive digestive herbs (non GMO, non irradiated of course) such as ginger, caraway, fennel, anise and more to create the most complete plant based enzyme system.

The enzyme activity in our McGuff plant based Enzyme Complex is tested according to USP (United States Pharmacopia) and FCC (Food Chemical Codex).

EVENING PRIMROSE OIL 500 mg

Evening Primrose Oil provides gamma-linolenic acid (GLA), linoleic acid and other important fatty acids. Evening Primrose Oil is the most researched source of GLA. All of the fatty acids in Evening Primrose Oil play a major role in maintaining heart, skin, cell membrane and nerve health. GLA is often recommended to help ease the discomforts of PMS. As a supplement, it can offset the body's declining ability to convert linoleic acid into gamma-linolenic acid. Our Evening Primrose Oil is non-GMO, cold pressed and hexane free.*

GLUTEN DIGESTIVE AID

97% of those with celiac disease are not diagnosed properly, as symptoms are similar to many other diseases. When gluten isn't digested properly, it can trigger an autoimmune response that causes the body to damage the lining of the small intestine, which decreases nutrient absorption - and leads to malnutrition.

Our Gluten Digestive Aid was formulated by an enzyme expert with 35 years' experience. We include several trademarked and tested ingredients to offer a comprehensive gluten digestive formula, complete to support the digestion of gluten, with added probiotics, prebiotics and Arabinogalactans to support digestive health.*

HAWTHORNE EXTRACT 500 mg

Our concentrated hawthorne extract helps relax blood vessels, and balance blood pressure. The nutritional benefits extend beyond the cardiovascular system, as Hawthorn is considered a tonic herb. Rich bioflavonoids are present in Hawthorn, and promote connective and cardiovascular tissue integrity.

Hawthorn is shown to help maintain normal cholesterol levels, has antioxidant properties. The German Commission E includes Hawthorn leaf and flower for maintenance of cardiovascular function. Our Hawthorne meets the requirements of the German Commission E monograph.*

HEALTHY SLEEP SUPPORT

Sleep challenges plague millions each night. Our formula offers a natural solution, without unpleasant morning fatigue. We've combined trademarked and tested Seditol® (a blend of magnolia and a chinese herb from the buckthorn family known as suan zao ren) with Suntheanine® (trademarked L-theanine), both shown to support healthy sleep and wake up feeling refreshed. Calming herbs Passionflower, Valerian, Hops and Skullcap (from our ISO 9000 certified supplier) ensure, as Shakespeare said, "sweet sleep, nature's gentle healer" will attend you!*

"A good laugh and a long sleep are the best cures in the doctor's book"

~ Irish proverb

HEALTHY WEIGHT

Lowering caloric intake, and increasing physical activity, are two key components to healthy weight - but there are nutrients that can support these worthy efforts. We designed our Healthy Weight as a comprehensive support to a healthy eating plan and exercise program. Our comprehensive formula supports healthy metabolism without stimulants. Due to wheat berry extract, this product is not gluten free.*

HIGH ALLICIN GARLIC 500 mg Odor Free

Romans, Egyptians, Chinese and most of Europe have historically used garlic as both medicine and food. Modern research has found the more alliin content, the more effective it is. Raw garlic contains the highest alliin content. Ours contains at least 5 mg Alliin per tablet. To eliminate the odor that is associated with the medicinal constituents, we use a natural layering process to create our odor free garlic. You get all the health benefits garlic provides (see the list below) - and your friends and family will still want to be around you!*

Supplement Facts

HIGH POTENCY B STRESS

The most important function of the B vitamin family is to work as coenzymes in the body, mediating the energy production cycle, also known as the Krebs cycle. Since B vitamins work synergistically in many of their functions, many people find best results when they are all taken together in a B complex formula. We add Vitamin C and relaxing herbs to assist in "de-stressing". Calcium and Magnesium 1:1 for additional support. For complete food based B Complex please see #8594 Phytonutrient B Complex.*

Price: \$16.00 SRP

HYALURONIC ACID 40 MG

Hyaluronic Acid is found throughout the body, within collagen. It supports the connective tissue structure by acting as a water magnet. Hyaluronic Acid (HA) supports joint health by cushioning and lubricating the cartilage. Excess UV exposure, oxidation, and aging increase the connective tissue breakdown. Supplementing with HA can slow this process. Since over 50% of HA is found in the skin, supplementing with HA may also contribute to the restoration of skin elasticity. Our HA is combined with 400 mg purified, hydrolyzed Collagen Complex and Chondroitin Sulfate.*

Supplement Facts

Serving Size: 1 Capsule

**IMMUNE RENEW
 8 Organic Mushroom Complex**

This formula is specially designed to support "the foundation" of good health - the immune system! We designed this as an ongoing, preventive tonic formula, also effective for acute conditions.

Therapeutic mushrooms are well known for assisting liver health, and encouraging cell growth. We chose concentrated Astragalus extract, standardized for potency, and a superior blend of 8 therapeutic mushrooms, each shown to support targeted focuses of the immune response - from T-Cell to Natural Killer Cell activity and more. High beta glucan content was another goal in creating this product, to support diets low in whole grains.*

INDOLE-3-CARBINOL 200 mg

McGuff's Indole-3-Carbinol is derived from cruciferous vegetables, cabbage, broccoli, kale. We chose to combine our I3C with trademarked LinumLife™ Flax Seed Lignan extract for added hormone balancing for both men and women. This formula provides powerful antioxidant protection, and helps maintain normal healthy hormone balance.

There are additional studies underway to verify its support of the breast, prostate and reproductive organs. This combination is known to support liver purification.

We don't add DIM, which is more stable than IC3 - but removes some of the beneficial compounds. Because I3C is very unstable, to ensure you efficacy and potency, we pack ours in amber glass with a strong freshness packet.*

Supplement Facts

L-LYSINE

Lysine interferes with replication of herpes viruses, and is helpful for those with cold sores or genital herpes. A lysine deficiency can occur either by an inadequate dietary intake – it is one of the eight “essential” amino acids; the body cannot manufacture it - or by an excessive arginine intake, found in foods such as nuts, chocolate, peanut butter, gelatin, wheat, soy, caffeine. Our 500 mg is vegan.*

METHYL B-12

Vegetarians, vegans, bariatric patients and seniors tend to lack B-12, although this nutrient is vital for everyone.

B-12 is vital for energy and red blood cell production. It is also essential for nerve and mental function, and cardiovascular health.

Methyl-cobalamin is a more bio-available form of B-12 - this is the form that exists in the body. Other forms of B-12 (cyanocobalamin) require some amount of conversion once they are consumed; methyl-cobalamin is the most active and effective form.*

Vegetarian.

Supplement Facts

MILK THISTLE 350 mg

Milk thistle has been shown to provide long term liver support and assist with regeneration of liver cells. It is widely used for liver cirrhosis, alcoholic hepatitis, alcoholic fatty liver, liver poisoning and viral hepatitis. Silymarin, the active ingredient most studied in Milk Thistle, plays a role in displacing toxins binding to the liver and causing the cells of the liver to regenerate at a faster rate. Helpful or those taking certain medications known to cause liver damage. Our 350 mg per vegetarian capsule makes it easy to take a therapeutic amount.*

Supplement Facts

Serving Size 1 Capsule Servings Per Container 60

Amount Per Serving	% Daily Value
Milk Thistle seed (<i>Silybum marianum</i>) (80% silymarins)	350 mg *

Standardized for a guaranteed potency of 80% silymarins.

* Daily Value not established.

Other Ingredients: Vegetable capsule, cellulose, magnesium stearate (vegetable source), silicon dioxide.

MSM 1000 mg OptiMSM®

For healthy joints, hair, skin and nails. MSM is found in all living plant and animal tissues. Sulfur is naturally found in foods yet is destroyed by cooking. Ours is trademarked OptiMSM®.

1,000mg of MSM provides 340mg of elemental sulfur. Sulfur is a necessary component for making collagen, the primary constituent of skin, hair, joints, cartilage and other connective tissues. Research suggests MSM may have the ability to improve joint health, making it a very popular supplement among seniors.*

NON GMO ORGANIC SOY PROTEIN POWDER

Research highlights the role SOY play in heart health, bone health and menopausal health. It is estimated that 90% or more of soy and other key foods are genetically modified. Our USDA Certified Organic, non-GMO Vanilla Soy Protein Powder helps meet the demand for organic and non-genetically modified foods. Our Organic Soy provides a pure, wholesome, organic source of a complete vegan/vegetarian protein. Unlike other soy powders, each serving has 17 gm protein, and 300 mg Alpha Linoleic Acid (ALA)- vegetarian source of omega- 3's! Ours also contains a full spectrum of amino acids; packed with phytochemicals, antioxidants, minerals and isoflavones.

FDA approved claim: Diets low in saturated fat and cholesterol containing 25 grams or more of soy protein or more a day may reduce the risk of heart disease. Vegan

PARA BYE

What do pets, children, sushi, barefoot walks on the beach have in common? Besides bringing joy and delight to our lives.... these are all possible ways to contract “parasites” - unwanted organisms - in our bodies.

Consider the facts, and the solutions.

It is estimated that 50% of the American public have parasites, and don't know it, because the symptoms mimic many other ailments. These “bad bacteria” don't contribute; they rob nutrients from the food we eat, and release toxins causing skin eruptions, indigestion, rashes, eye pain, asthma, abdominal pain and more.

We created PARA BYE to support the detoxification and help eliminate both the adult parasites and eggs they lay. These hide in the mucous membranes, respiratory system and digestive tract. This formula support the digestive, immune, circulatory and elimination systems. Now, go hug your kids! **Contains tree nuts.***

POTASSIUM 99 mg

Research indicates a diet low in potassium and high in sodium is associated with high blood pressure. Potassium and sodium work together, maintaining fluid balance. In the membrane of all body cells is a pump that regulates these two minerals to prevent cellular swelling and facilitate proper function in muscle and nerve cells. Potassium is Important for heart, nerve and muscle health. Among other health benefits, potassium regulates heartbeat and the function of the muscles.*

POWER WHEY

Whey supports the body's ability to maintain, increase, and repair muscle by absorbing and retaining nitrogen. It also provides the milk proteins, B-lactoglobulin, A-lactalbumin, immunoglobulin, and lactoferrin, which are important for immune system function.

Whey surpasses even whole eggs, steak, in its ability to deposit nitrogen in the muscle. Our Power Whey has highly bio-available protein concentrate, making it ideal to promote muscle repair, maintenance and growth. Free-form branched chain amino acids have been added to further support muscle health.

Our proprietary process uses only natural enzymes and high quality membrane filters to separate the whey and preserve the essential nutrients. Due to the low temperature processing, our whey supports cellular glutathione levels, one of nature's important antioxidants. This state-of-the-art processing creates a complete spectrum of whey peptides, improving nitrogen retention, supporting immune system health, and providing antioxidant protection.*

PSYLLIUM HUSKS 550 mg
Non Irradiated, Non GMO

Digestive problems are one of the main illnesses in the USA, affecting nearly 70 million people! Over the past century, average diets moved away from whole fruits, vegetables and grains, and towards more processed foods.

We now know that the fibrous parts removed in food manufacturing have value after all! The Food and Nutrition Board of the Institute of Medicine established recommends levels for fiber, of 14 grams for every 1000 calories. Our convenient non GMO and non irradiated psyllium veg caps offer a convenient and easy way to increase fiber. For other convenient fiber options, see #1587 Super Fiber Vegetable Tablets, and #8616 Clear Fiber®.*

PYCNOGENOL® 50 mg

Pycnogenol® is a natural plant product made from the bark of European coastal pine. It is a powerful antioxidant supplement containing over 40 water-soluble antioxidants, composed primarily of proanthocyanidins. Pycnogenol® has four basic properties – it's a powerful antioxidant, acts as a natural anti-inflammatory, selectively binds to collagen and elastin, and helps to dilate blood vessels. Published studies have validated Pycnogenol®'s role in promoting a wide range of health benefits, including cardiovascular, circulatory, joint and eye health, glucose balancing and much more.*

q.s.™ MULTI VITAMIN / MINERAL / TRACE ELEMENT q.s.™ “Quantum Sa’tis” - Latin for ‘a sufficient amount’

McGuff's unique q.s.™ formulas are based on American College for Advancement in Medicine (ACAM) patient requirements. q.s.™ continues as our best selling multi vitamin, mineral and trace element combination. q.s.™ provides a broad spectrum of patient support through the deliberate and synergistic use of 29 combined ingredients.

Why have patients take twelve or more tablets and capsules to minimally achieve what q.s.™ does with six tablets per day?

q.s.™ has many uncommon traits:

- Specially formulated for the hyper-allergenic patient. All common allergens and artificial ingredients are strictly excluded!
- Specially formulated to reduce Sodium and Chloride content to minimize stress on the challenged cardiovascular patient.
- Superior absorption by design. Each mineral has multiple molecular forms to provide maximum availability for best patient tolerance and outcome.
- q.s.™ contains 29 minerals and trace elements designed for safe preventive nutritional maintenance over a sustained period. Even for geriatric patients.
- Formulated to contain the maximum allowable trace element content allowed by ACAM protocol.
- Priced to create value for both the physician and patient.

QUERCETIN COMPLEX

Quercetin Complex assists in creating a healthy inflammation response; protects against prostatitis symptoms and increases Vitamin C absorption. Quercetin is often used to aid in joint health and seasonal allergies.

Other health benefits are being revealed in research, including prostate function, and antioxidant protection against free radicals, which may be associated with aging. Quercetin is a bioflavonoid compound found in foods such as green leafy vegetables, apples, beans, citrus fruits, along with Vitamin C. It is also found in green and black tea. We combine additional vitamin C, magnesium, bromelain, and other bioflavonoids for a synergistic formula and optimal results.*

REDS POWER WITH FLAX, ORGANIC

Do YOU eat 5-9 servings of fruits and vegetables, each and every day of the year?

Most people don't. Yet optimal health and vitality depend on it! McGuff offers easy solutions that even picky kids will love!

Reds Power With Flax - Organic - is concentrates of organic fruits, berries, fiber and flax. It provides 40mg of omega-3 fats and clarifying green tea, it's full of antioxidants and is guaranteed to contain 3,000 ORAC units equal to at least 4 - 6 servings of fruits and vegetables. We add organic flax meal for the benefits of fiber and lignans

It does not contain conventional pesticides, synthetic fertilizers, growth hormones, genetic modification or antibiotics. We source only natural, organic raw materials that promote the use of renewable resources and conservation and are reviewed by USDA-approved organic certifiers.

It's great tasting, in your favorite juice, water and smoothie ingredients! Kids love it too! * Vegan.

RESVERATROL 150 mg

Resveratrol, an antioxidant found in red wine, grape skins, peanuts and Japanese knotweed. Research continues to reveal amazing health benefits! It stimulates a protein called Sirtuin that mimics the effects of caloric restriction - shown to extend lifespan! Beneficial for heart health and has anti-inflammatory action. Recent reports show promise for Type 2 diabetes. It appears to stimulate thermogenic activity (fat burning). Our completely natural Resveratrol is standardized to 75 mg natural trans-resveratrol with additional red wine extract.*

Supplement Facts

SAM-e 200 mg

SAM-e is a naturally occurring substance that is produced in the body and regulates many functions in the cells and nervous system. Multi-tasking SAM-e has been found helpful in alleviating depression without side effects.

Studies show that SAM-e may reduce stiffness, pain and swelling in arthritic joints. Some research shows it helps liver disease and fibromyalgia as well. Our 200 mg SAM-e is sourced from premium raw materials. Since it is very hydroscopic (absorbs moisture from its environment), we carefully seal ours in an enteric coating for optimum protection.*

Supplement Facts

Serving Size: 1 Tablet

Amount Per Serving	% Daily Value
SAM-e (from 400 mg of s-adenosyl-L-methionine disulfate tosylate)	200 mg*

*Daily Value Not Established

Other Ingredients: Cellulose, mannitol, carboxymethylstarch sodium salt, silica, glycerol behenate, magnesium stearate, methacrylic acid, glycerol palmitostearate, medium chain triglycerides, titanium dioxide, talc, triethyl citrate and riboflavin.

Item #5015

PROSTATE SUPPORT Saw Palmetto & Pygeum Plus

Bad news first, then the good news: By age 50, one in two men experienced some symptoms of enlarged prostate (BPH). By age 80, it's closer to 90%. Now - the good news! Several phytonutrients have shown success with preventing or delaying BPH and the uncomfortable symptoms.

Our formula contains the same clinically studied purified extracts of Saw Palmetto and Pygeum from our ISO 9000 and GMP certified supplier in Europe, therapeutic levels at the recommended dosage of 4 per day.

We also add trademarked Lycopene, shown in studies to maintain health of the prostate cells. Nettles, pumpkin seed oil and trademarked L-OptiZinc have all shown to contribute to prostate health.*

SUPER FIBER

Our Super Fiber Vegetable Tablets offer a complimentary blend of both soluble and insoluble fibers for a complete fiber supplement. Psyllium is rich in dietary fiber and has been traditionally used to help support a healthy digestive tract. Oat bran has the most soluble fiber of any grain; and it is a good source of insoluble fiber as well. Guar gum is derived from the seed of the guar plant and provides soluble fiber.

For other convenient fiber options, see # 8616 Clear Fiber® and #8589 non GMO non Irradiated Psyllium Husks Vegetarian Capsules.*

ST. JOHN'S WORT 300 mg

St. John's Wort promotes mental well-being and relaxation. In Europe where St. John's Wort is used extensively, scientific research has confirmed positive effects. This herb is used as a prescription antidepressant in Germany. Research shows that St. John's Wort can be effective for mild to moderate depression. The active components are found in the bud, flower or leaves of this herb.

Our McGuff St. Johns Wort is standardized (Hypericum perforatum) extract powder from the highest grade whole flowering tops, as well as 0.9mg of hypericin. It conforms to the dosage and mode of administration as established by the German Commission E monograph. A salve made with the extract can be used topically to treat bruises, burns, insect bites and scabies. Historically, it was used for wound healing. Our unique proprietary process makes our St. John's Wort easier to digest and more bio-available.*

Theraderm Therapeutic Products

TheraDerm Therapy gives quick temporary relief of minor simple backache, arthritis, bruises, strains and sprains. A soothing natural alternative, TheraDerm provides three different applications:

- 1) Ointment 2) Spray 3) Patches

Testimonials

"I suffered from pain in my right knee from an exercise injury that occurred about six months ago. My doctor told me to take ibuprofen and ice my knee. I did, but the pain worsened. I began using TheraDerm pain-relieving patches and spray as a natural way to ease the pain. Within half a day, the pain went away and stayed away. I have been using Theraderm products instead of prescription medication, and I feel great!"

Jessica W. age 25

"I injured my knee in high school playing soccer. It was never quite the same and would get sore with extended use, walking, bike riding. In July, I was riding a trail bike and skidded on sand that was over hidden concrete, and fell hard on my weak knee. I suffered for a month, using Tylenol, ice, and it wasn't getting better. I went to Dr. _____ and he treated me with TheraDerm patches. I wore them every day for a week, and the pain is completely gone and I can walk again! That was 8 months ago and the pain hasn't come back, and I am back on my trail bike again!"

George T. age 48

TUMERIC EXTRACT 500 mg

Our Tumeric 500 mg. is trademarked Curcumin C3 Complex. C3 Complex shows powerful antioxidant properties, neutralizing both water and fat soluble free radicals. It supports healthy gastrointestinal tract; has been shown to support liver detoxification; promotes wound healing and healthy cell growth. C3 was chosen for clinical studies at leading research institutions on: Colorectal Cancer, Immunological Mechanism in Alzheimer's Disease, Treatment of Alcoholic Hepatitis, Free Radical Trapping Properties of Curcuminoids; Anti-inflammatory and Anti-Cancer Potentials; Cystic Fibrosis; Pharmacokinetics in Normal Healthy Volunteers; and Pancreatic Cancer.

Standardized to 95% Curcuminoids, C3 is a trademarked leader over other Tumeric compounds on the market. Recent clinical research confirm many other health benefits, in addition to Tumeric's many thousand years' history as a medicinal herb. In AyerVedic Medicine, Tumeric is commonly used for proper digestion. German Commission E Monograph lists tumeric as a therapeutic herb for dyspepsia (upset stomach).

C3 Tumeric is generally recognized as safe (GRAS) Under sections 201(s) and 409 of the Federal Food, Drug, and Cosmetic Act.*

ULTRA CLEANSE AM/PM Kit

True to its name, Ultra Cleanse System AM/PM is designed for busy people who want a simple yet all encompassing program to cleanse and detoxify.

Our AM/PM system contains trademarked ingredients and herbal concentrates to utilize the body's ingenious detoxification pathways and elimination system. It supports the liver, kidneys, colon, lungs, lymph to dispose of toxins. We designed it to be easy to use, gentle, with no harsh laxatives.

Contains ClearFiber®, a patented source of soluble fiber shown in studies to promote normal bowel function - no harsh laxatives.

To aid cleansing, it is recommended to drink additional water throughout the day. Take your weight, drink at least half that many ounces of water (For example, 150 lbs = 75 oz. of water daily).

The body naturally works towards health and balance. We can help it along by cooperating with our simple comprehensive Ultra Cleansing System AM/PM, to support overall health and wellness.* Vegetarian/Vegan.

UNFLAVORED WHEY

For us humans, whey is the most efficient and complete protein, more than eggs, steak or milk. Its amino acid profile is superior, with more than a third being BCAA (branched chain amino acids).

Our Unflavored Whey is sourced from dairy cows not fed bovine growth hormones or antibiotics and is not genetically modified. Our proprietary process uses only natural enzymes and high quality membrane filters to separate the whey and preserve the essential nutrients. Due to the low temperature processing, our whey supports cellular glutathione levels, one of nature's important antioxidants. This state-of-the-art processing creates a complete spectrum of whey peptides, improving nitrogen retention, supporting immune system health, and providing antioxidant protection. The ion exchanged, ultra filtered process yields the highest level of protein while preserving the immune enhancing and muscle building bioactives. Our Unflavored Whey contains no other ingredients, and is very easy to mix; tastes great with juice, fruit, milk, and nut milks.*

VITAMIN C ROSE HIPS 1000 mg

No vitamin routine should be without the antioxidant power of Vitamin C. We add Vitamin C rich Rosehips, which contain high levels of antioxidant flavonoids with known anti-inflammatory properties. The anti-inflammatory properties of rose hips have recently been shown to be useful in the treatment of patients suffering from knee or hip osteoarthritis. Rose hips also contain carotenoid pigments, plant sterols, tocotrienols and a very high level of anthocyanins, catechins and other polyphenolics, known phytochemicals to protect against cardiovascular disease.

A daily supplement regimen with vitamin C offers powerful protection against free radical damage, helps keep capillary walls and blood vessels strong, and supports healthy teeth, gums, and bones. Because vitamin C is water-soluble, it needs to be replenished on a daily basis.*

Supplement Facts

Vitamin C (as ascorbic acid)	1,000 mg	1667%
Rose Hips	50 mg	*

* Daily Value not established.

Other Ingredients: Capsule (gelatin), magnesium stearate (vegetable source).

100 Capsule **Item #8426**
Price: \$19.00 SRP

VITAMIN D

Sunlight. Literally every single food we eat is captured sunlight. The very air we breathe, is a gift from the sun - through photosynthesis, plants "exhale" the oxygen that keeps us alive, and we return the favor, through our breath back to them as carbon dioxide. In just a few minutes in the sunlight, our bodies create thousands of "units" of Vitamin D.

Vitamin D supports cardiovascular health, diabetes, depression, bone health, arthritis, asthma symptoms, healthy body weight, with more clinical trials in the works. Research confirms almost daily yet another health benefit of "The Sunshine Vitamin" D.

After years of admonitions to avoid the sun, "wear sunblock"; and for those who live in northern climates, or have naturally dark skin - it's clear supplementing Vitamin D is vital to our health. Let the sunshine in! *

**VITAMIN E 400 IU
 100% NATURAL Mixed
 Tocopherols**

A powerful fat-soluble antioxidant, Vitamin E scavenges free radicals protecting cells from oxidative damage. When combined with a healthy diet and lifestyle, vitamin E supplements can help neutralize excess free radicals to promote heart health.

Research shows natural Vitamin E is more bio-available to the body than synthetic sources, and we only offer natural Vitamin E in our McGuff brand.*

Supplement Facts

90 Softgel Capsule Item #1583
Price: \$15.00 SRP

VITAMIN E WITH SELENIUM

Organic selenium works synergistically with vitamin E to protect cell membranes. Selenium may boost fertility, especially among men. The mineral has been shown to improve the production of sperm and sperm movement.

Our Vitamin E with Selenium, both superb antioxidants, work together to provide superior cellular protection. We use only natural Vitamin E, D-alpha in a base of mixed tocopherols, and our Selenium is yeast free l-selenomethionine, a more bio-available form of Selenium.

Our Vitamin E with Selenium contains all natural, unesterified d-alpha tocopherol in a base of mixed tocopherols, including d-beta, d-gamma, and d-delta. Our Selenium is the superior yeast free l-selenomethionine. The natural ingredients in our Vitamin E with Selenium may result in slight color variation from batch to batch.*

 Other Ingredients: Perlecaps (gelatin, glycerin), soy oil and yellow beeswax.

90 Softgel Capsule Item #8585
Price: \$17.00 SRP

VITAMIN K2 45 mcg M-7

K2 strengthens bones, and supports healthy arteries. It basically ensures Calcium gets to where it should - bones and blood - and stays away from where it shouldn't - "calcification" of bone spurs, soft tissues, vessels. Great to combine with any of our Calcium formulas. See # 8590 Cal Mag Citrate with D, #8591 Chelated Cal.Mag plus Betaine HCL and #8592 Cal Mag Zinc with D.

Our McGuff K-2 is completely naturally sourced, and is the more bio-available, all natural M-7 (Menaquinone-7) form. *

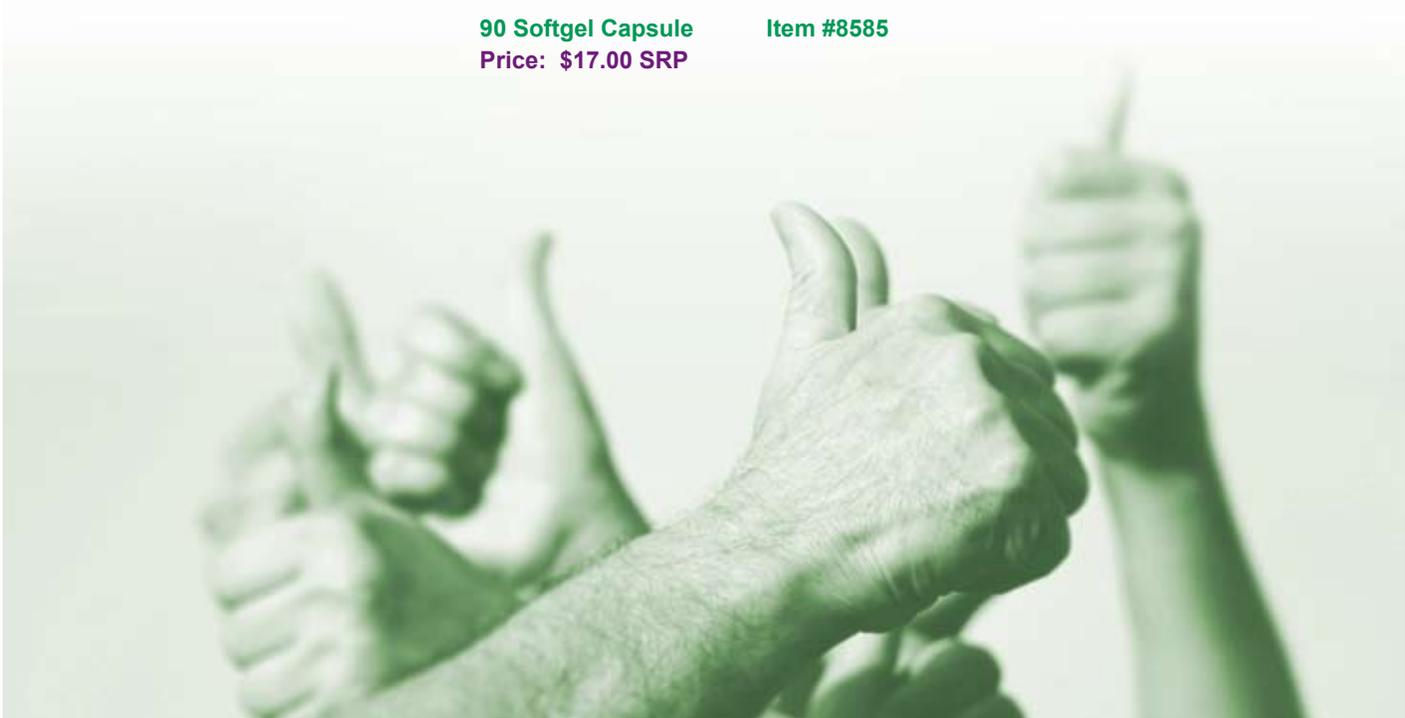

Supplement Facts

Serving Size: 1 Vegetarian Capsule

Amount Per Serving	% DV	
Vitamin K-2 (as menaquinone-7)	45 mcg	56%

Other Ingredients: Capsules (cellulose, water) microcrystalline cellulose, magnesium stearate and silica. Contains soy.

60 Vegetarian Capsule Item #8605
Price: \$17.00 SRP

Premium Quality Start to Finish

"If I had asked people what they wanted, they would have said faster horses."

~ Henry Ford

At McGuff, we are dedicated to providing you with the highest quality product possible. Our mission is always to retain our uncompromising passion for quality and customer satisfaction. We source superior raw materials and suppliers and use exceptional production methods to create nutritional products of premium quality and value.

Adherence to Good Manufacturing Practices

Complete raw material sampling, including identification, analysis and release to predetermined specifications.

Microbiological analysis to ensure absence of salmonella, E.coli, yeast, and molds.

Room and equipment inspection prior to blending, milling, drying, and coating.

Sign-off procedure prior to start of any processes.

Computer recording of weights eliminates human error.

Testing for hardness, thickness, and friability at half-hour intervals to ensure uniformity.

Chronological sequence tracking in each step of production provides reference records.

Statistically significant random testing of each production batch.

Sample retention from every batch for one year after Best By Date.

Additional Steps Ensure Quality

"A wise man will make more opportunities than he finds." ~ Francis Bacon

High efficiency particulate absorbing (HEPA) airflow filter system eliminates cross contamination.

Premium packaging preserves freshness and ensures maximum potency.

Best By Dates assures potency of sealed products.

Full-body, tamper-evident sleeves ensure consumer safety.

Wherever possible, we use organic, whole food, and trademarked science based raw materials.

Quality Service

Lot number used to fill each order is recorded for future reference.

Orders are filled and shipped the day that they are received

Physician access to personalized technical support from McGuff Pharmacists and Nutraceutical Specialists.

"I find the harder I work, the more luck I seem to have." ~ Thomas Jefferson

Corporate Commitment to:

Retain our uncompromising passion for quality and customer satisfaction.

Offer you premium high quality safe dietary supplements.

Provide professional, dependable, loyal customer support.

Provide products that fill your patients' needs.

Offer competitive pricing so you can profit from your knowledge.

Frequently Asked Questions about Quality

“Always stand on principle, even if you stand alone.” ~ John Quincy Adams

To what standards do our raw material suppliers adhere?

As active members of the Council for Responsible Nutrition, Natural Products Association, Organic Trade Association; our suppliers follow rigorous codes of ethics.

All facilities are certified for Good Manufacturing Practices by the Natural Products Association, NSF International, or both.

Organic products and raw materials are certified by the United States Department of Agriculture (USDA) and Quality Assurance International (QAI).

Facilities are certified organic by both USDA and QAI.

Dietary supplements are manufactured in full compliance with the Code of Federal Regulations 21CFR210, 211, which ensure quality controls throughout all processing.

Herbal raw materials are compliant with the stringent German Commission E monograph requirements.

All products are manufactured in the United States of America.

What steps are taken to ensure the quality of the raw materials used?

“You never have trouble if you are prepared for it.” ~ Teddy Roosevelt

Raw materials are tested when received. Written specifications for each raw material provide the benchmarks for testing. Analytical methods used are described by:

United States Pharmacopeia
Nationals Formulary

American Organization of Analytical Chemists
Food Chemicals Codex

Examples of laboratory equipment used for testing raw materials:

Infrared Spectrophotometry

Ultraviolet-visible spectrophotometry

High Performance Liquid Chromatography

Gas Chromatography

Atomic Absorption

Fourier Transform Infrared

Capillary Electrophoresis

Near-infrared spectrophotometry

Do you test your finished products?

Yes. In-process evaluations are performed on every lot during manufacture. Verification of product compliance to release specifications is made by our Quality Assurance team prior to being sent to packaging. Each product must meet/exceed stringent specifications, which include, but are not limited to: Satisfactory potency results; disintegration or dissolution testing; batch yield reconciliation independent quality systems review of all processes and materials used to manufacture products.

What do you mean by “natural” and “organic”?

Organic ingredients do not contain genetically modified organisms. Organic raw materials must be free of artificial additives, are processed without artificial methods, materials and conditions, such as irradiation. Our Organic products and raw materials are certified by the United States Department of Agriculture (USDA) and Quality Assurance International (QAI).

The guidelines of the U.S. Department of Agriculture (USDA) National Organic Program are: “100% Organic”: 100% of the ingredients are organic; “Organic”: 95-99% of the ingredients are organic; “Made with Organic”: at least 70% of the ingredients are organic.

Our natural ingredients are derived from plant, animal and mineral sources. Our list of acceptable excipients (“other ingredients”) is very strict, not allowing for the use of artificial color or preservatives, and ingredients commonly used in our competitors products. In a rare instance, such as melatonin, we choose a synthetic raw material, for purity and safety.

What are your vegetarian capsules made of? Are they genetically modified?

Our vegetarian capsules are made from cellulose (plant fiber) from pine trees. They are not genetically modified. Cellulose is a carbohydrate found in the cell walls of plants.

Do McGuff tablets and capsules contain any coatings, binders, & fillers?

“Make everything as simple as possible, but not simpler.” ~ Albert Einstein

Yes – and here is why: To combine natural ingredients into tablets and capsules, and to ensure absorption, certain natural excipients are sometimes needed. We use only what is necessary to ensure their bio-availability. We never use artificial flavors, colors or preservatives. Cellulose is used in many of our products as a natural coating agent and/or as a binder. It has the ability to bind ingredients together in such a way as to allow them to disintegrate properly to maximize absorption. Our labels, product information, catalog and website clearly state every ingredient in our products, or used in manufacturing them.

What is time release, or prolonged release?

The time release process is a method of production where the vitamins are formed into coated beadlets. These beadlets dissolve in the system over time. This gives the nutrients more time to work and improves bio-availability. Water soluble ingredients, such as Vitamin B, and C, are more effective with prolonged release.

What is USP? How does a product earn a USP verification?

The United States Pharmacopeia (USP) is a non-governmental, official public standards setting authority for prescription and over the counter medicines and other healthcare products manufactured or sold in the United States. USP also sets standards for food ingredients and dietary supplements. USP sets standards for the quality, purity, strength, and consistency of these products. USP's standards are recognized and used in more than 130 countries around the globe. These standards have helped to ensure public health throughout the world for close to 200 years.

McGuff views the USP and National Formulary monographs as the very best reference of its kind for nutraceutical products. McGuff's first choice of nutraceutical raw materials will always be USP grade when available.

Do you guarantee your products?

Yes. Our guarantee of purity and full potency is clearly stated on the product label.

What types of packaging materials are used?

Most products are packaged in recyclable amber-colored glass or high-density polyethylene plastic bottles, with safety seals, plastic screw caps, and full-body tamper-evident sleeves. Recyclable corrugated cardboard is used for multi-pack containers.

What about Liability Insurance?

We can provide our customers with a Certificate of Insurance upon request.

How do you distribute your product?

McGuff nutritional products are shipped from the McGuff Company pharmaceutical distribution facility. All products are held under strict FDA cGMP standards. The facility is independently certified by the National Association of Boards of Pharmacy (NABP) via the Verified-Accredited Wholesale Distributors program.

The Verified-Accredited Wholesale Distributors (VAWD) program provides assurance that the wholesale distribution facility operates legitimately, is validly licensed in good standing, and is employing security and best practices for safely distributing prescription drugs from manufacturers to pharmacies and other institutions. Applicants for VAWD accreditation undergo a criteria compliance review, licensure verification, a survey, background checks, and screening through the NABP Clearinghouse.

We ship UPS ground. Expedited service is available; please inquire.

Meet Your Pharmacist

Dr. Clay Hammett, Pharm.D.

Compounding Pharmacist and
Treatment Specialist

Clay has a natural ability to communicate with physicians and patients in a professional and caring manner. He prides himself on being able to draw knowledge from an extensive background in clinical and compounding pharmacy. He is able to put his experience in compounding together with all his other pharmacy experience to provide innovative solutions to health problems. In addition to providing individual consultations with clinicians and patients, Clay formulates custom solutions to a patient's unique problem. In so doing, Clay is able to form a true partnership with clinicians and their patients and work as a team to solve their health issues.

Clay understands that compounding gives him the ability to help custom design therapies for individual patients. "One drug size does not fit all". Clay will always work patiently and with great empathy to find answers; he uses kindness and understanding to improve patient outcomes. In his words, "In the compounding world, medicine becomes open and everyone can use their imagination and experiences to develop innovative solutions to patient problems." Everyone is unique and medicine needs the tools to cater to every person's individual needs. Clay can help provide these tools.

At McGuff, Clay can coordinate a vast number of resources to develop unique solutions to clinical and business problems. He is always looking for new ideas that will help practitioners take charge of their practices and make them stand out in their practice settings. In his words, "when the clinicians that work with McGuff flourish and prosper, we do too."

Clay is the pharmacist to call for questions about hormones, pain formulations, dermatology, vaginal/rectal pain issues, dentistry problems, or any area that requires a non-sterile compounding solution. Whether he is in the office or the field, his utmost concern is always for the patients care.

Education Summary:

Doctor Of Pharmacy, University of Southern California
BS, Biology, University Of California, Irvine

Specialized Training:

Sterile and Non-Sterile Drug Compounding
ISO 9001:2000 Quality Systems
Code of Federal Regulations Part 21 cGMP Compliance
Research and Product Development
